

News from the Coalition

Thank you to everyone who participated in last month's Coalition meeting.

During that meeting, we reviewed recommendations for further publicizing [data from the Native Urban Elder Needs Assessment Survey 1.0](#). We also discussed plans for the policy, funding, and dissemination subgroups that many of you joined earlier this year.

Additionally, we learned about the Oklahoma Life Expectancy Project, the purpose of which is to help explain why the life expectancy of Native people in Oklahoma declined by 2.4 years between 2000 and 2019.

As our communities observe National American Indian and Alaska Native Heritage Month together, we hope you will take some time to celebrate all that the Coalition has accomplished thus far.

Your role in our work is vital, and your ongoing advocacy efforts will help make sure that more resources are allocated to meet the needs of Native urban Elders.

Resources

Alzheimer's Disease Awareness

In observance of National Alzheimer's Disease Awareness Month, share a new Healthy Brain, Healthy Aging rack card from the International Association for Indigenous Aging.

[Get the rack card >](#)

Resources for Older Veterans

Access a guide to programs and services for older veterans who have or are at risk for behavioral health conditions.

[Get the guide >](#)

Medicare Enrollment Ends Dec. 7

In advance of Medicare's open enrollment deadline, review the 2025 Medicare handbook to learn about coverage options and how Elders can get the most out of the services offered.
